Directions and Visitor Entry Procedures (PLEASE READ PRIOR TO ARRIVAL):

Please send Hema Subramanian (Subramanian.hema@epa.gov <mailto:Subramanian.hema@epa.gov>) a list of names of non-federal visitors two days prior to the meeting, and arrive 15 minutes prior to your appointment to allow time for security screening and escort to the meeting room.

EPA address is 1200 Pennsylvania Avenue, NW.

Metro stop: Federal Triangle

Although our street address is 1200 Pennsylvania Avenue, the main entrances for visitors are not along Pennsylvania Avenue. Enter the William Jefferson Clinton South building via doors to the left of the Federal Triangle Metro exit escalators (when exiting the Metro and facing Woodrow Wilson Plaza). For more details and a map:

https://www.epa.gov/aboutepa/visiting-epa-headquarters

If you are coming by taxi/vehicle, you want to be dropped off on 12th Street NW, midway between Pennsylvania and Constitution Avenue. From 12th Street, facing the building with the EPA and American flags, walk toward the building (under the flags) and take the glass door on your left side near the escalators going down to the metro. This is the South Lobby entrance to the William Jefferson Clinton building.

AMERICAN OVERSIGHT

Non-federal visitors will need to go through metal detectors and provide the security desk:

- your REAL ID Act-compliant identification

- EPA contact information (Hema Subramanian, 202-564-5041)

- destination room (Alm Room)

Security will call us to sign you in and escort you to the room. For details on security and ID requirements, see:

ABS has developed an semi-permanent antimicrobial surface coating. Clinical studies have shown that in hospital settings the use of their coating significantly cuts the rate of Hospital Acquired Infections.

ABS is in the process of registering a new active ingredient and having their claims validated by the Anti-Microbial division at EPA. We have had multiple meetings with staff in the Anti-Microbial division that have been positive, but ultimately the process to bring this life saving technology to market is still extremely slow.

Members of the Toxic Substances Control Act (TSCA) New Chemicals Coalition (NCC) would like to schedule a meeting with you and other U.S. Environmental Protection Agency (EPA) staff. The purpose of the meeting is to discuss the issues staff is encountering as part of new chemical reviews under TSCA Section 5. We believe there may be approaches in which we could work together to solve the many challenges that the Office of Pollution Prevention and Toxics (OPPT) faces in implementing new TSCA while diminishing the significant problems that continue to occur.

In particular, we are specifically concerned with the ongoing commercial impacts resulting from assumptions about workplace practices that are overseen by the U.S. Occupational Safety and Health Administration (OSHA). We believe a transparent and factual basis for EPA's assumptions for new chemicals with workplace exposures will result in reduced EPA burdens, more consistent workplace exposure control requirements, and an overall stronger regulatory framework.

Subject FW: May 1 Meeting
Location 3130C East, conference line (b) (6) code (b) (6)
Show Time As Tentative

Hi Charlotte and Nancy,

Forwarding this meeting invite from Louise to let you know that this meeting is happening the day before our May 1 meeting, and to convey a welcome for either or both of you to join in you want to participate – especially since I've seen a cancelation for our regular check in which would have been on 4/27 (I was going to be out of town anyway). I'm confident we will be able to quickly go through the pieces so all aware of how things will be ready for May 1 event. Of course, also please let me know if you have any questions or anything else you need from us in regard to this meeting (e.g., you ok with the talking points, etc.).

Hi all,

AMERICAN OVERSIGHT

As noted below, we are offering a conference call to provide an overview of the GenX and PFBS assessments and answer any questions prior to the internal Agency review of the assessments. Overview materials will be added to the invite prior to the call.

Thank you,

Dear Internal Agency Review contacts,

As you know, in response to an urgent and priority request by the Administrator, OW/OST and ORD/NCEA have taken the lead to develop human health toxicity values for GenX and PFBS, respectively. These two assessments are expanding on existing work from OPPT (GenX) and ORD (PFBS). Some background information is attached. We will be offering an opportunity for rapid review of these assessments starting on 5/07/18. Please identify the expert reviewers in your region or program to prepare for this rapid review – you will have one week for this review, and each program/region is expected to provide one consolidated set of comments. The timeline is short as the Administrator has asked for these assessments and toxicity values to be prepared in a 6-month period including peer review. We are scheduling a conference call on or about 4/30/18 to provide an overview of the assessments and answer any questions.

The list of review coordinators for your organizations is below. Unless we hear from you otherwise, these individuals will be our points of contact for the review.

Please forward your questions to Ashley Harper. We will review and respond accordingly.

Thank you,

OW/OST and ORD/NCEA

Subject OCSPP Managers' Meeting - Save the Date
Location WJC East 1153
Show Time As Free

New update – Our May 1 meeting will start with lunch at 12:00 (not 12:30); and, per the agenda, the working part of the meeting will still start promptly at 1:00 and end at 3:30 with a post-meeting social event for those who can stick around.

Dear OCSPP Managers,

I'm sending you this update to my previous invitation to provide you more information for our first Annual OCSPP First Line Supervisors Meeting on May 1. The OCSPP DAAs view this meeting as a critically important event in support of our OCSPP priorities. Please refer to the attached Agenda for meeting objectives, outline (including list of challenges/opportunities), and logistics (including suggestions for

AMERICAN OVERSIGHT

staggered shuttle bus use from PY). While our expectation is that all OCSPP first-line supervisors will attend the entire meeting, we are also expecting that Division- and Office-level management will be present for at least the opening remarks (1:00 to 1:45). Also, we welcome all to participate in the pre-meeting pizza/salad networking appreciation lunch starting at noon! Importantly, we will be using acceptances to this meeting invite to ensure broad OCSPP participation and to give us a good sense of how much food to get. If you are planning to come to the meeting, but will be skipping lunch, please let your First Line Supervisor Forum Co-Lead know, so we can plan accordingly. The FLS Forum co-leads are Seema Schappelle-OSCP, Rachel Holloman-OPP, and Guy Tomassoni-OPPT.

Very much looking forward to your participation in this first line supervisor-focused, cross-OCSPP dialogue. Questions concerning this meeting can be directed to any of our FLS Forum Co-Leads (Rachel, Seema, or Guy).

Thank you,

Louise P. Wise

Deputy Assistant Administrator

Briefing focused on expanded access to TSCA CBI to non-Federal persons and entities. OMB has determined an ICR must be developed for this guidance. The guidance will be published for public comment together with the draft ICR. Briefing proposed for May after OMB review and public comment has been received and reviewed by workgroup. Section 14 also requires EPA, in consultation with the CDC, to develop a "request and notification" system that allows for expedient and swift access to information disclosed under sections 14(d)(5) and 14(d)(6). No deadline is given for developing this system.

Good afternoon all –

We have a very full agenda for tomorrow afternoon (see attached).

Also attached for your convenience are the Action Items Table and the TSCA Section 14 CBI Update presentation slides.

Please take a moment to look at the Action Items Table before the meeting – especially to see if your office is identified as the lead for any items.

For the Measures Discussion:

* P2 - Here is the general concept (specific language to change):

Measure: Number of significant actions taken by Regions to amplify and share P2 approaches with States and Tribes, business and industry groups and the general public through meetings, webinars, social media, development of fact sheets or case studies, press releases, presentations or speeches.

Target: # of significant outreach actions taken to amplify and share P2 results (each Region would project an annual number they will commit to, to be tracked on a monthly basis).

Actual: number of significant outreach activities each month.

* Lead – the discussion will include an update and then center around setting targets.

Have a good evening!

* Paul Wenger, Wood Colony Nut Co: EPA requirement for a closed mixing system for paraquat herbicide

According to tracey Chow in Denham's office, "Pruitt expressed that it could be resolved easily," and asked for more information which is included below.

As you'll see below, apparently Paul was supposed to meet with Ken Wagner, but I have no idea if that actually took place. If it did, Tracey made no mention of it to me when we spoke and did not forward me any of their correspondence.

Subject: Fwd: Paraquat EPA

AMERICAN OVERSIGHT

Hi Tracey,

Sorry for not getting this to you sooner as promised. Your email jogged my memory.

I found out about the USEPA edict to require a closed mixing system for paraquat when I was speaking at the CAPCA annual meeting in October. As I started asking around, no one really was aware except the registrants of paraquat and they felt they needed to stay silent on the issue as they were the regulated registrants. AFBF and others made cursory comments but no one who has ever actually mixed, loaded or applied paraquat. CFBF, CAPCA, Western Plant Health snd other organizations I reached out to had no knowledge of this potential change to using paraquat.

As a background, CalEPA/ DPR has had a closed mix requirement for years. California had been the ONLY state with such a requirement for paraquat. County Ag Commissioners have long known there are zero, as in no, functionally adequate closed system for mixing most pesticides. About 7 or 8 years ago, I challenged DPR to the safety of closed mixing systems, when one ruptured on me when I was filling a ground sprayer. Pouring the product out of a gallon or 2 1/2 gallon container from the manufacturer, is clearly the safest way to use paraquat. DPR commissioned an extensive multi-year review and study, ultimately removing over 100 crop protection materials from the CA mandated closed system requirement and added about 10 products to the closed system requirement. Paraquat was one of the products removed.

USEPA unilaterally took on this review of paraquat. In reviewing the docket that was sent out in 2016, all poisonings were either from accidental ingestion when paraquat was put in a container like a soda bottle or from suicides. There were no incidences of accidental poisoning from farm or other intended uses.

Last October, I met with Yu Ting and another guy, who do pesticide registration review at USEPA. After discussing my issue with closed systems with them, the fact that there are zero commercially produced closed systems that work and you can't regulate "stupid", they agreed that finding a solution was more difficult than they thought it would be. From this forwarded email from Jay Vroom, you can see this has taken an extensive time, because the solution they are pursuing doesn't exist.

That is really their purpose and reason for this mandatory closed

AMERICAN OVERSIGHT

system for “less than bulk mixing and loading”. Yu Ting told me paraquat was dangerous, outdated and shouldn’t be used any longer. So a lack of an effective closed mic system will drive growers to not use it, or use it illegally. Both are unacceptable results. With increasing glyphosate (Roundup) resistance, paraquat is critically important to controlling weeds.

They then told me that while this has become more complicated than they had anticipated, it was too late to go back. I challenged them by saying if new information becomes available that they can’t change course.

USEPA had no knowledge of the lengthy study Cal EPA/DPR did on paraquat, ultimately removing the requirement. At a meeting I attended, with DPR also in attendance, in San Diego with registrants and 10 companies trying to design a closed mix systems, it was clearly evident that only a PhD could make these devises work.....maybe. The DPR person was Harvard Fong, Senior Industrial Hygienist. He made the statement that USEPA was 10 years behind the times and they never outreached to Cal EPA/DPR.

I know this explanatory email is very lengthy, but just when we get the most liberal and regulation driven state to make a much needed change to our pesticide regulations after lengthy study and review, some individuals within USEPA arbitrarily make it their goal to restrict and hopefully diminish the utilization of paraquat by farmers and others.

All the points about training and use by certified applicators is fine. But the third item requiring a closed system on containers less then 120 gallons is ridiculous. So how do you pick up and pour a container larger than 120 gallons? Their goal here is very clear, regulate paraquat out of existence.

Again, sorry for the lengthy email on a Friday, but this issue is a great example of run-away regulation, driven by personal agendas.

Not sure if I should bring it up on Tuesday. I am planning another trip to DC and to hopefully meet with a Ken Wagner, who is supposedly in a position to help.

If you need more info, let me know.

Paul—my colleague Ray McAllister pulled this together for your quick overview. Looks like the closed system concept is well embedded in their approach at EPA. I am amazed at how long the reg review docket has been open!

The draft risk assessments for registration review of paraquat are projected for release in the third quarter of 2018. Excerpt:

Based on the high number and severity of human health incidents associated with the pesticide paraquat dichloride (also referred to as paraquat), the Environmental Protection Agency (EPA or the Agency) has determined the following risk mitigation measures are necessary in order for pesticide products containing paraquat to meet the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) standard for registration:

1. Label changes emphasizing paraquat toxicity and supplemental warning materials;

2. Targeted training materials for paraquat users;

3. Closed-system packaging for all non-bulk (less than 120 gallon) end use product containers of paraquat; and

4. Restricting the use of all paraquat products to certified applicators only (i.e., prohibiting use by uncertified persons working under the supervision of a certified applicator).

Thank you for your responses. Our suggested time for the working group meeting is 2:45-3:15 this Friday afternoon. Apologies for awkward time, but it's the only window where we could get coverage from all the agencies. If this is a no-go for any of the agencies, please let me know as soon as possible. Otherwise, please pencil this in and I will send out a meeting request tomorrow when I am back at CEQ.

Thanks,

Alex

We are suggesting a roughly 30-minute call this Friday afternoon, May 18, sometime between 1:30pm and 4:00pm. Please let me know your availability during this window, so we can get something scheduled as soon as possible.

Apologies everyone – we will be in WJCN 5530 after all. We will have someone posted at the other location to redirect lost traffic.

Colleagues,

As stated in our February 23rd memo <https://www.epa.gov/sites/production/files/2018-02/documents/epa_ej_memo_02.23.2018.pdf> , EPA is launching a new Environmental Justice and Community Revitalization Council (EJCRC). OP AA Brittany Bolen will convene our first meeting of this council on May 29, 2018. I ask that Assistant and Regional Administrators participate in this initial meeting, along with program staff from your organizations involved in EJ and community-based work. One of the first items we will discuss at this meeting will be the council's permanent membership and expectations for future meeting frequency.

The EJCRC will function as the Agency's central decision-making body for determining environmental justice and community-driven strategic priorities and guiding their implementation. The EJCRC will support the Administrator's goals of cooperative federalism and public participation in solving environmental challenges through locally led, community-driven solutions. The EJCRC will also support vulnerable communities in their efforts to grow, revitalize, and thrive by leading the integration and better alignment of the Agency's EJ and community efforts across our programs and activities. We would like to use this meeting to begin a conversation with EPA senior leadership on the most immediate priorities for these programs, which include

their involvement with the lead initiative, working with states and meeting communities at their needs.

Attached please find a draft agenda for this meeting. Should you have any questions or need any assistance in preparation for this meeting, please contact Alyssa Edwards (Edwards.alyssa@epa.gov <mailto:Edwards.alyssa@epa.gov> , 202-564-0473).

Environmental Defense Fund requests a meeting with you and other appropriate EPA staff to discuss OCSPP's implementation of the requirements of the Lautenberg Act with respect to the assertion, substantiation, EPA review and determination, and public disclosure of information submitted to the agency that is subject to claims of confidential business information (CBI).

While we wish to discuss the issue broadly as it relates to both existing and new chemicals under TSCA, we are particularly interested in hearing from the agency how it is or intends to implement the law's requirements relating to:

* CBI claims in new chemical notices and associated information, and EPA's reviews of them; we have recently completed an in-depth analysis of about 70 PMN public files we received from EPA's Docket Center, and have identified what we consider serious, systemic deficiencies, detailed in a series of blog posts (https://bit.ly/2JsyOoF <https://bit.ly/2JsyOoF>);

* assignment of unique identifiers to chemicals for which the agency approves or receives CBI claims for specific chemical identity; and

* publication of EPA determinations on CBI claims it reviews.

We also would like to receive an update on EPA's plan and schedule for:

* making public an updated database of information collected under the 2016 cycle of Chemical Data Reporting (CDR) that includes all information the agency originally withheld in its initial release that is not eligible for CBI protection; and

* establishing a readily accessible means for the public to track the

status of EPA reviews of CBI claims, and where approved, understand the sunset dates associated with such claims.

Original: Ensure that the products of biotechnology that could have been produced through conventional breeding which pose no greater identified risk are treated no more stringently than those conventionally bred products.

EPA suggestion: Recognize that certain agricultural biotechnology products pose no greater applicable risk than their conventionally bred counterparts and should be treated no more stringently than those conventionally bred products.

EPA comment: EPA regulations currently require that "products of biotechnology that could have been produced through conventional breeding" and have pesticide traits must be regulated as pesticides under FIFRA and FFDCA. Thus suggested edits. We are still working through the range that those products take up and considering rulemaking to ensure that they are treated no more stringently than similar conventionally bred products. However, EPA's range for these products may be different than what USDA has communicated since EPA must consider food safety for plant-incorporated protectants.

Show Time As Busy

Hello everyone –

Please see additional attachment and short summary below pertaining to discussion on P2 Priorities:

Short summary of discussion: Issue under consideration: Given the authorities and mandates of the Pollution Prevention Act of 1990, and on-going Congressional direction for EPA's P2 program (via appropriation for FY2018 and early drafts of FY2019), how can EPA's P2 leadership in HQ and Regions best align the program with the EPA Strategic Plan and elements of the Presidential Budget (which proposed elimination of the program in FY2018 and continues the proposal for FY2019)?

AGENDA:

1. Roll call – Vickie Pane (5 minutes)

* PCB Needs Assessment status
* September In-Person

2. Budget update – Greg Scott (5 minutes)
3. P2 Priorities – David Widawsky (10 minutes)
4. TSCA Deadlines Update – Jeff Morris (10 minutes)
5. PENTA Update – Anita Pease (5 minutes)
6. OPP ECR Device Decisions – Ed Messina (20 minutes)

Questions:

* What is the current docket of Stop-sale orders?
* How informed are the regional and HQ program offices about these in advance?
* What does that process look like?
* How does the ECR process play into this?
* How does the device/pesticide determination process play into this?
* The resource implications for Regional and OPP review?

7. Round Robin – Regional updates – all (remaining time)

Subject: Speaking with someone Monday about epidemiology and pesticide decisions

I wanted to talk with someone at EPA about how epidemiology is used in pesticide decisions. I have read the attached document.

I wanted to ask questions like

1) How useful is epidemiology in pesticide decisions and why is it important, if you thin it is

2) CropLife in Nov. 2016, see below, filed a petition asking EPA to "halt regulatory decisions that are highly influenced/determined by results of epidemiological studies that do not meet well-defined data quality standards, and that are not integrated into the health risk assessment in a transparent, well-defined manner." Any interim or final registration review decision for Phosmet could potentially be impacted by EPA consideration of the epidemiological studies identified in the CLA petition. What ended up happening with this

3) How would the Strengthening Transparency in Regulatory Science proposal impact, if at all, your ability to use epidemiology in pesticide decisions, and if not, why not.

AMERICAN OVERSIGHT

4) I also have questions about organophosphates, including making sure I understand what the 10X debate is about, and what the timeline is for reevaluating this class of pesticides and where the agency stands on health impacts and potential use of epi studies for this effort.

I really hope we can discuss all of this without just getting formal written responses to these questions. Let me know if we can have this conversation on Monday. It could be a mix of on the record and on background.

This is a case where the story is not yet drafted and we want your input in advance to help influence the story.

Thanks in advance

Eric

Meeting Description

* Review the portfolio of BPPD's Environmental Stewardship Branch and how it is responsive to EPA's integrated pest management (IPM) charge under FIFRA/FQPA as well as supportive of the division's PRIA efforts. Learn how this branch promotes IPM to a variety of stakeholders in mosquito control districts, schools, health departments, agriculture, and homes. Learn how the EPA Regions and long-standing relationships with non-profit organizations are used to further disseminate the message about IPM as part of a sustainable, healthy environment. Additionally, an overview of BPPD's draft IPM strategy will be shared.

Expected Outcome

* Clearance to provide IPM strategy for DAA review and agreement and, subsequently, clearance for OPP to share the draft strategy with the Regions to secure their buy-in and guide their IPM implementation and outreach efforts.

Subject	Virtual Preparatory Meeting for the OPPT - PBT Letter Review
Location	EPA-East Rm 4128
Show Time As	Tentative

I will send out a corresponding email, but briefly:

- This meeting invitation is for the open public virtual (preparatory) meeting.

- The basic agenda will be: a) introductions; b) opening remarks; c) brief OPPT programmatic overview; d) public comments; e) review panel members and their questions on scope and clarity of charge questions.

- The public meeting follows a closed administrative meeting for the panel members (not open to public). If you attend the meeting in Rm 4128, starting at 1 PM, please feel free to arrive as early as 12:55 PM, we wish to start the public session right at 1 PM.

- This meeting only focuses on the scope and clarity of charge and is not open to reviewer deliberations.

- FYI: Our experience is this type of public virtual meeting runs from 60 to 90 minutes and thus we expect if all goes well this meeting will not go past 3 PM.

Subject: possible informal meeting during July

Nancy and Jeff –

I am interested in scheduling a meeting with the two of you soon, so we can confer and bring you up to date on the considerable progress that is being made on certain new chemicals issues.

Among the clients I represent, I am fortunate to work with the Semiconductor Industry Association. SIA includes the major US manufacturers of semiconductors (“microchips”) that are components of numerous electronic devices. That industry works closely with its suppliers, who are manufacturers and processors of various sophisticated chemical substances and mixtures that are critical to “chip” making. Such substances are unique and highly specific in their composition and properties; consequently, new chemicals often are being developed to suit specific technologies.

Among the substances used in these processes are Photo-acid Generators (PAGs) which are used in photolithographic processes to layer various surfaces on microchips. Last year, SIA and its suppliers voluntarily formed a Consortium to address certain issues that had been arising in the context of the Agency’s review of PAG substances that are submitted as new chemicals (in LVEs and PMNs).

AMERICAN OVERSIGHT

Approximately one year ago, the two of you met with a delegation from SIA and its core group of suppliers to discuss the New Chemicals Program's approach to new chemical PAGs. (The meeting occurred in May 2017, just as Mark Greenwood was retiring from his practice – while he was transitioning this client to me.) In the intervening period, we have made great strides as the PAG Consortium has worked collaboratively with New Chemicals Program personnel on a structured agreement by which our members are supplying certain information to EPA reviewers and will be generating new data on representative PAG substances to submit to EPA.

We think this would be a good time for you to become more acquainted with SIA's role, how its industry depends on the availability of innovative new chemistries, and report on how the PAG Consortium is continuing to work with EPA personnel to further the Agency's objectives to obtain a more robust data profile on this category of substances.

If we could find mutually convenient dates during the middle two weeks in July (the weeks of July 9th and 16th) that would be ideal. I realize your schedules are jammed packed; thus, an informal meeting is being sought. We would bring with us only a handful of SIA personnel, one or two representative members, and a "supplier" representative.

I would be pleased to contact your respective schedulers to seek an appropriate date.

Larry

Our discussion interests include the points that we both we have submitted during the comment periods and will likely include other comment submissions both from other response, such as Oxitec/Intrexon and other substantive comments that highlight concerns, risks, performance and standards applicable to the OX513A.

Our goals remain focused on assuring human and ecological health and safety, and the science of assessing this technology within the background of outstanding societal needs that have affect on risk, versus reward, decision making.

Summary of Discussion and Action Items from LAST YEAR'S RA meeting with Ag Secretaries – September 28, 2017.

Worker Protection Standards:

• Nancy Beck informed the group that EPA plans to extend the compliance date (EPA granted the NASDA petition asking for more time to outreach to the regulated community) and look at other issues in the WPS rulemaking. EPA will engage stakeholders through an Advance Notice of Proposed Rulemaking (ANPRM) to get input on issues such as applicator exclusion zones, designated representative issue, minimum age, etc.). The ANPRM will be released in October or November.

• DE is most concerned with who is responsible for ensuring training happens -- the farmer or brokers who contract with farmers and hire workforce. DE has brokers who contract with farmers who grow crops. The brokers hire the workforce to harvest the crop. These brokers work up and down the eastern seaboard. Brokers say they are not subject to the same enforcement in other regions that they are experiencing in R3. Enforcement needs to be the same across the US.

• The question is what is the responsibility of the farmers, in training the workers they hire, even when they are contracting labor.

• DE is also concerned with the timing of any changes to the WPS regulations. Any changes would need to be finalized by January in

AMERICAN OVERSIGHT

order to give states time to do additional training and education before growing season starts.

• DE emphasized the need for consistent and comprehensive education and outreach from both states and EPA is necessary.

ACTION: DE Ag Secretary Scuse will work with RA to develop a set of issues to send to Nancy Beck for consideration in the ANPRM.

ACTION: EPA will make a practice to inform the State Ag Departments (at Secretary level), along with the State Environmental Agencies, when EPA is moving forward with conducting inspections or taking compliance or enforcement actions against farmers on the Worker Protection Standards regulations. Note that EPA only inspects if referred by the state.

ACTION: EPA will work with states to ensure consistent education and outreach at key ag events. EPA will conduct a joint training with DE at Ag Week and at the Watermelon Association training.

Pesticide Reviews:

• EPA will be re-evaluating over 700 pesticides by 2022 based on sound science.

• DE wants to ensure the continued use of chlorpyrifos, glyphosate, and atrazine. DE says that there is no scientific basis for removing the use of these pesticides, indicating that atrazine has been evaluated by EPA twelve times.

ACTION: EPA will finalize human health risk assessments for atrazine and glyphosate by the end of the year. Nancy Beck offered to brief the group on the results of the studies and other new developments as they become available.

Lynn,

Verdict is this is indeed a good opportunity. Can you work with Derrick to get the right details/dates/times on the calendar and then we can worry about the other details (topics etc) as we get closer.

Thanks for thinking of us!

Subject: Product Stewardship Society- Invitation to Speak

Nancy,

As President-Elect of the Product Stewardship Society https://www.productstewards.org/Pages/default.aspx <https://www.productstewards.org/Pages/default.asp x> , an affiliate of the American Industrial Hygiene Association (AIHA) (www.aiha.org <http://www.aiha.org>), I write to invite you to speak at our 2018 Conference https://www.productstewards.org/ProductStewardship 2018/Pages/default.aspx <https://www.productstewards.org/ProductStewardshi p2018/Pages/default.aspx> . The conference is conveniently located in Washington, D.C. on September 27-29, 2018, at the Marriott Marquis. We seek your participation on Saturday, September 29, at 10:00 a.m. to keynote the closing plenary session.

AMERICAN OVERSIGHT

Reasons to Accept this Invitation

1. EPA OCSPP has not historically participated in AIHA PSS events. We believe this is an excellent venue to address this gap.
2. Given amendments to TSCA, there is a much greater need for the industrial hygiene and product stewardship community to know and understand TSCA and your participation in the Conference will help draw attention to this need (Section 5 SNURs and workplace issues come to mind).
3. Product stewardship is a growing area of substantive interest and our members and participants need to hear from you as this Administration's top TSCA leader.
4. While this presentation falls on a Saturday, which is not great news, because it falls on a Saturday, you may be more available and willing to spend an hour with several hundred people extremely interested in what you have to say.

Please let me know as we are anxious to promote your participation if we are lucky enough to secure your acceptance.

Thanks

I am proposing to push up the moot court on October 5 by one hour (from 2 pm to 1 pm) to address a schedule conflict at EPA. If the new time is a problem for anyone let me know. Thanks. Jack

_____ _____

I am proposing to push this back to 2 pm on the same day, to resolve a conflict with a pair of CAA D.C. Circuit arguments we have in the morning, which some of us will be attending. Sorry for the inconvenience. If the new time is a problem for anyone planning to attend let me know. Thanks. Jack

All –

AMERICAN OVERSIGHT

The D.C. Circuit has scheduled oral argument in this case for October 12, 2018, before Chief Judge Garland, Judge Millett, and Senior Judge Edwards. We are planning to hold two moot courts. The first will be at 10 am on Friday, Sept. 28, and the second will be at 10 am on Friday, Oct. 5. Please let me know if these times present a conflict for anyone planning to attend. Otherwise, Phil will distribute the briefs about a week in advance. The two moots should cover the same ground, although I expect the first one to be a little less formal.

Please feel free to forward this invitation to others at EPA who might wish to attend.

If anyone wants to participate by phone, please call (b) (6), code (b) (6).

I'd appreciate it if someone at EPA could send me a list of EPA employees who are expecting to attend the moot court(s) in person a couple days in advance so we can provide a list to our security staff to help with building access.

Thanks.

Subject: Exit Conference with GAO (Job Code 102673)

Good afternoon. I'm writing to set up our Exit Conference for job code 102673: EPA's Chemical Management Strategies (focusing on the IRIS Program and TSCA implementation).

We have a lot of EPA officials that we have met with over the course of this engagement. Because of this, we would like two, one hour meetings – one on IRIS and one on TSCA; both held via conference call. We think this is the best use of everyone's time.

We are free:

Wednesday, October 31: 2-5 (IRIS Meeting only)

Monday, November 5: 12 – 1:30 and 4-5 (IRIS and/or TSCA)

Tuesday, November 6: 10-11:00 and 2-5 (IRIS and/or TSCA)

AMERICAN OVERSIGHT

Key staff we have worked with (please invite those who would benefit from this meeting) IRIS Staff: Jennifer Orme-Zavaleta, Tina Bahadori, Kris Thayer, James Avery, any other relevant staff

TSCA Staff: Nancy Beck, Jeff Morris, Mark Hartman, Mike Burns, any other relevant staff

Let me know if you have any questions. As we've mentioned, we're under tight internal timeframes so we need to get these meetings scheduled ASAP.

Thanks!

AMERICAN OVERSIGHT

I wanted to get a date on the calendar for what is evolving into a biannual Women in Energy (WinE) Happy Hour. All are welcome, so feel free to forward this invitation.

A few disclaimers….

* If you should have been on MY list and got this through a forwarded message from someone else, forgive me! I'm simply relying on past invitation lists and have not individually scrutinized the names.
* Details will follow closer to the date.
* Feel free to suggest locations that will accommodate the group (leg work on your part appreciated).
* This is not a Hess sponsored event.
* No one is being invited to this event in any official capacity; just a bunch of friends that have known eachother over the years getting together.

A number of my state farm bureaus have asked me if it would be possible to get EPA on a conference call with them to answer questions about the new dicamba label. Any chance we might be able to do that? Am happy to host with our conference line.

If you guys would be available, let me know and I'll work on things at my end.

Thanks for considering this.

All,

All –

Our colleagues in EPA have graciously offered to come to our office to provide us with training in anticipation of upcoming challenges to actions taken pursuant to the 2016 TSCA amendments.

The first session will be from 2-3:30 pm on Thursday, 11/29, in PHB 8000. (b) (5) [redacted] We are also planning a second session on existing chemicals, which will be scheduled soon, probably sometime in December.

I am starting this invite with EDS managers and EDS staff attorneys who are currently handling TSCA matters, but I will also reach out to other EDS attorneys who may be interested. I am also including Justin Smith (LPS) and Jennifer Neumann (Appellate), in case anyone in your offices might be interested. My one request is that anyone who is planning to come in person please RSVP to this invite so we know how many people to plan for logistically.

AMERICAN OVERSIGHT

I will also open up a conference line if anyone wants to listen in by phone at (b) (6) , code (b) (6) . We are also going to look into whether we can record all or part of this for future reference by people who can't make it in person or on the phone.

EPA folks – thanks again for setting this up, and feel free to pass this invitation on to others at the agency. Also, I'd appreciate it if you would send me a list of likely in-person EPA attendees a couple days in advance that we can provide to our security staff to help with building access.

Thanks.

Jack

Specifically, we met with Rick to inquire about engagement on the advancements EPA and the Services have made for ESA biological evaluations / consultation since the last public workshop in 2016, and to request establishment of forums for stakeholder engagement to continue work on the ESA assessment. Given that the last public workshop on these topics happened some time ago, we believe EPA should open channels for stakeholder engagement on topics such as:

• Streamline and modernize FIFRA and ESA risk assessment to make it more realistic and defensible;

• Work with EPA/OPP to make changes to deliver a simpler more workable assessment;

• After the initial requested public workshop, continue updates from EPA on progress it is making in its work (again, it's been a while since we have heard on the progress in this space, & more regularity would be helpful);

• Mechanisms for engagement, as it relates to work that EPA is engaging and in which industry is expending resources. Mechanisms need to include ability to withstand time and political change (e.g., have substance & structure), resource commitment to problem solving, focus and public engagement, as appropriate.

The group will include science, technical and policy experts from our member companies- likely 4-6 of us in attendance.

I'm baffled as well.

I also shared with USDA and the State Department and have asked our embassy in Sri Lanka for any info they have on the winner.

I will be shocked if they don't walk this back.

Nancy,

This seems like something that may be of interest. Perhaps EPA can even engage AAAS leadership to figure out what happened here. Pretty embarrassing. I'm working some contacts as well.

Time 4:00 PM – 4:30 PM
Subject MOU signing with National FFA Elected Officers
Location Alm Room
Show Time As Tentative

Please join if you are able as the Acting Admin can no longer join National FFA for the first time due to a new obligation at the White House. During this meeting, we thought the present program office leadership (or Tate if you can't make it) could give the FFA student officers an overview of what they do as it pertains to ag at the agency. Henry will be signing a formal MOU with National FFA towards the end.

Run of Show: Tate will lead and introduce program office heads in attendance. Each program should designate one point person to give a 2-3 min overview of what they do at the agency/ how it relates to Ag.

Attendees (6 Student National Officers + 4 National FFA DC Staff):

Students

* Luke O'Leary, National President, California
* Layni LeBlanc, National Secretary, Louisiana
* Shea Booster, National Western Region VP, Oregon
* Jordan Stowe, National Southern Region VP, Alabama
* Ridge Hughbanks, National Central Region VP, Oklahoma

AMERICAN OVERSIGHT

* Adrian Schunk, National Eastern Region VP, Michigan

National FFA Staff

* Riley Pagett, National FFA (from Oklahoma, worked for Sen. Lankford and House Ag)

* Jordan Henry, National FFA
* Karen Huchison, National FFA (possible)
* Jason Martin, National FFA (possible)

Background

Future Farmers of America" was founded by a group of young farmers in 1928. (In 1988, the name was changed to the National FFA Organization.) Their mission was to prepare future generations for the challenges of feeding a growing population. National FFA is a national youth organization of more than 670,000 student members as part of local National FFA chapters in all 50 states, Puerto Rico, the U.S. Virgin Islands, and Washington, D.C. They have a very complex state and local officer electoral structure.

Talking Points:

* EPA & National FFA will sign a first-time MOU (Draft for your review is in your binder)

* This is a first-time nonbinding agreement to enhance cooperation between the EPA and FFA
* This MOU provides an opportunity to attract, educate, inspire and prepare students for careers and opportunities within today's various environmental fields
* Next steps- EPA regional ag counselors along with HQ are developing a framework to help with added collaboration between EPA regional offices and FFA state associations and local FFA chapters

* EPA Environmental Education Grants and Youth & Teacher Awards Programs—There are no funds obligated in the MOU to fund FFA projects, but your team has been trying to expand the traditional applicant pool for our EE programs to non-traditional audiences.

* EPA's has been trying to expand its reach into rural America. FFA can help us with this.
* FFA works with many organizations that help can help increase the application pool for the President's Environmental Youth Awards (PEYA) do for engaging with K-12 students as well as the Presidential Innovation Award for Environmental Educators (PIAEE)
* Ag activities are now included such as projects on water quality standards, reducing food waste, integrated pest management and more.

To explore the question received below:

Nancy,

We are writing to you at this time because several companies have

AMERICAN OVERSIGHT

pet spot-on registrations that will be expiring in the next several weeks to months and there is ambiguity about the status of these products should this occur. For background, since 2010 EPA has registered pet spot-on products as “conditional” with a two-year expiration date. The result is that such products are in a continuous state of registration submission and review. We have been working with OPP to eliminate this requirement as it is both unnecessary and overly burdensome for EPA and the registrants. Unfortunately, the shutdown has intervened on those discussions and has placed affected manufacturers in a very difficult position. For example, one registrant’s product expires in late January and several additional products will expire in February. Even if EPA were to reopen this week, the backlog of actions due to the shutdown may prevent the Agency from acting on these priorities. In addition, we are concerned that enforcement could occur, or that the states and/or retailers could take action before the registration is addressed.

We need your assistance to prevent expiration of these product registrations. For products that will expire either during or soon after the shutdown ends, we are asking EPA to allow an extension of the conditional registration in order to allow affected companies to respond. We would be happy to share further details and work with EPA on the broader issue of time-limited registrations for these products.

Thanks and I look forward to your response.
